

Assessment Updates

Our Assessment Update mailers are designed to give Oasys platform users and Saville Assessment test users an important overview of system changes and product updates.

Relocation of our Cloud Based (Azure) Servers

Following on from our previous communications in September 2019 regarding the relocation of our cloud based (Azure) servers, we have recently been advised that Microsoft will be ready to action this migration this quarter.

The move will be from the Sovereign Azure servers located in Germany to International Azure servers located in the European Economic Area (EEA).

The reason for this move is that the Sovereign Azure service located in Germany is being withdrawn by Microsoft in favour of hosting in other locations within the EEA. Our core data will continue to reside in the EEA and this move will allow us to continue to develop and secure the Oasys platform using the latest enterprise-grade technologies provided by Microsoft Azure. For further details, please see the Microsoft press release [here](#).

As soon as Microsoft have confirmed an exact date for the move, we will share more details.

What action is required?

You are not required to take any action in order to continue to use the Oasys services. Please contact us at assessment.updates@savilleassessment.com.
