Assessment Updates Oasys Information

Release of Swift Comprehension Verbal & Numerical-Rx (IA) (SCVN-Rx)

What is it?

SCVN-Rx is a mobile friendly comprehension level Swift aptitude test. It has been developed to allow candidates to complete a short verbal and numerical test at the comprehension level across a range of devices including mobile phones.
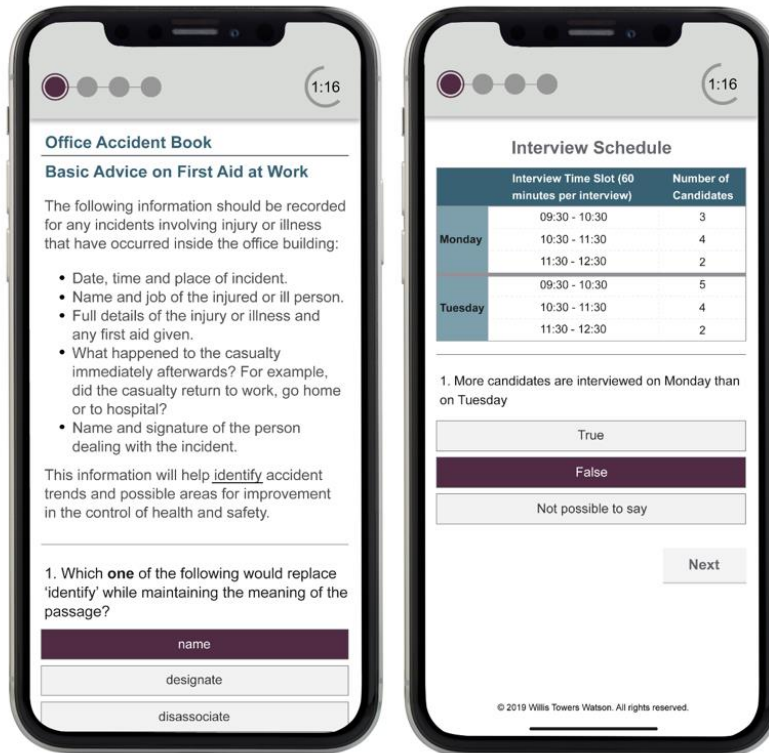

- The test consists of 3 verbal testlets and 3 numerical testlets of four items each (24 items in total)
- The time limit per testlet is 2 minutes (12 minutes in total)

As with all our other –Rx tests, SCVN-Rx features variable content, with different candidates seeing different but statistically-comparable tests constructed from banks of questions.

Pricing details for this new test can be found on the 2020 price list.

Example of candidate dashboard showing the new test and instructions page.

Example of practice verbal and numerical question item

Which norms are new?

We have created a new set of norms to power this assessment. As this assessment sits within the comprehension level the norms are the same level as for other assessments in this range.

1. Apprentices (INT, IA, 2018)
2. Apprentices (UK, IA, 2018)
3. Foundation Level Group (INT, IA, 2016)
4. Individual Contributors (INT, IA, 2016)
5. Individual Contributors (UK, IA, 2016)
6. Mixed Occupational Group (INT, IA, 2016)
7. Mixed Occupational Group (UK, IA, 2016)

What languages are available?

English is available now. Phase one of our language development will then include the following:

• Arabic
• Indonesian
• Danish
• Spanish (Spain)
• Spanish (Latin American/Mexican)
• Russian

The current timeline is to deliver these is Q2-2020.

What email template should be used when inviting candidates to complete this test?

Administrators setting up new projects using this test should invite candidates by using the email template named 'Assessee Invitation – Default'.

Can I get detailed information about the new norms?

Full norm group descriptions are available on the Members Area.

When will this test be added to my platform?

The test will initially be launched in English only and will be rolled out to selected platforms in January 2020.

If you have not had this test added and would like this to be added to your platform please contact bureau.manager@savilleassessment.com.

If you currently have an integration and wish this test to be added to your integration, please get in touch with integration.support@savilleassessment.com.

Should you have any general questions, please contact your account manager directly or email assessment.updates@savilleassessment.com.
