

Assessment Update Comms – September 2019

Relocation of Our Cloud Based (Azure) Servers

Data collected through the Oasys platform by Saville Assessment Ltd is currently hosted on Microsoft Azure Germany servers on their Sovereign cloud service. The Sovereign cloud service we use is shortly to be discontinued by Microsoft in favor of new Microsoft data centers in Germany.

What are the changes?

Over the coming months, we will be working with Microsoft to achieve a smooth migration of the Oasys platform and data to this new service. Our core data will continue to reside in Germany and this move will allow us to continue to develop and secure the Oasys platform using the latest enterprise-grade technologies provided by Microsoft Azure.

For further details, please see the Microsoft press release here

<https://news.microsoft.com/europe/2018/08/31/microsoft-to-deliver-cloud-services-from-new-datacentres-in-germany-in-2019-to-meet-evolving-customer-needs/>.

For further information on data security, please refer to our standard terms and conditions.

What action is required?

You are not required to take any action in order to continue to use the Oasys services. If you have any questions regarding this move, please submit them to us within 90 days of this notification.

Should you have any questions in relation this move, please contact assessment.updates@savilleassessment.com.

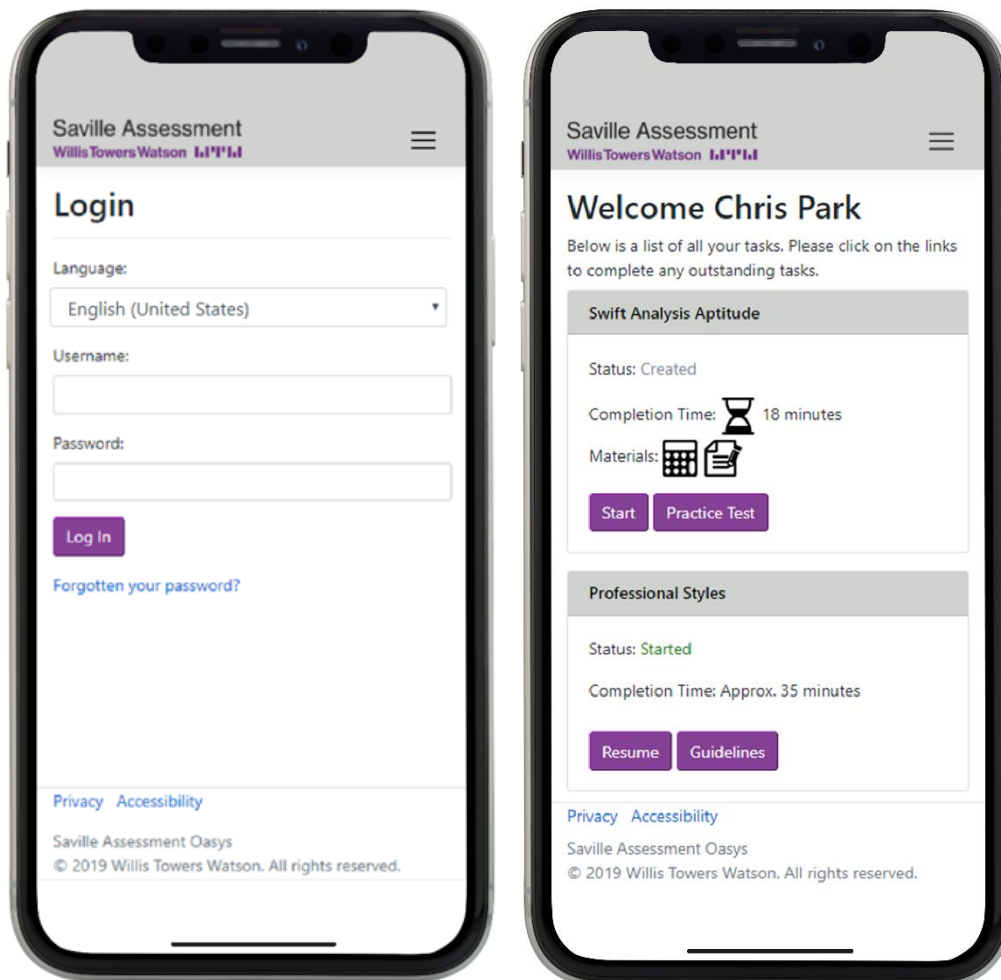

Our Refreshed Oasys Dashboard

We have recently made improvements to the Oasys Dashboard to further enhance the user experience for candidates.

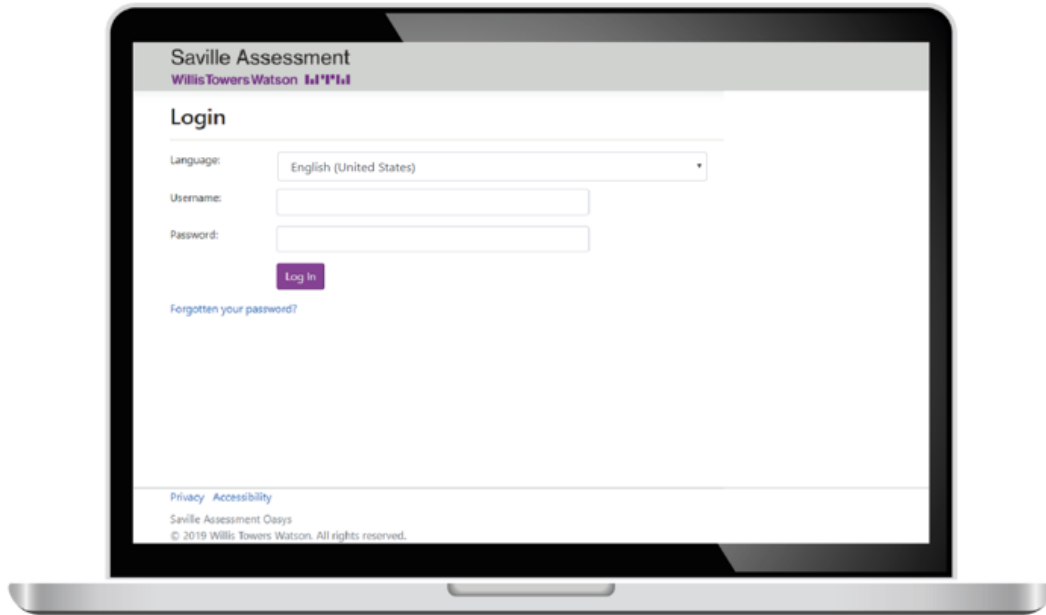

What are the changes?

Changes have been made to the candidate side of the Oasys platform to improve the responsiveness of the login page and subsequent pages across a range of devices. Changes to the administrator login page have also been made. In order to do this effectively, the pages have a new look and feel.

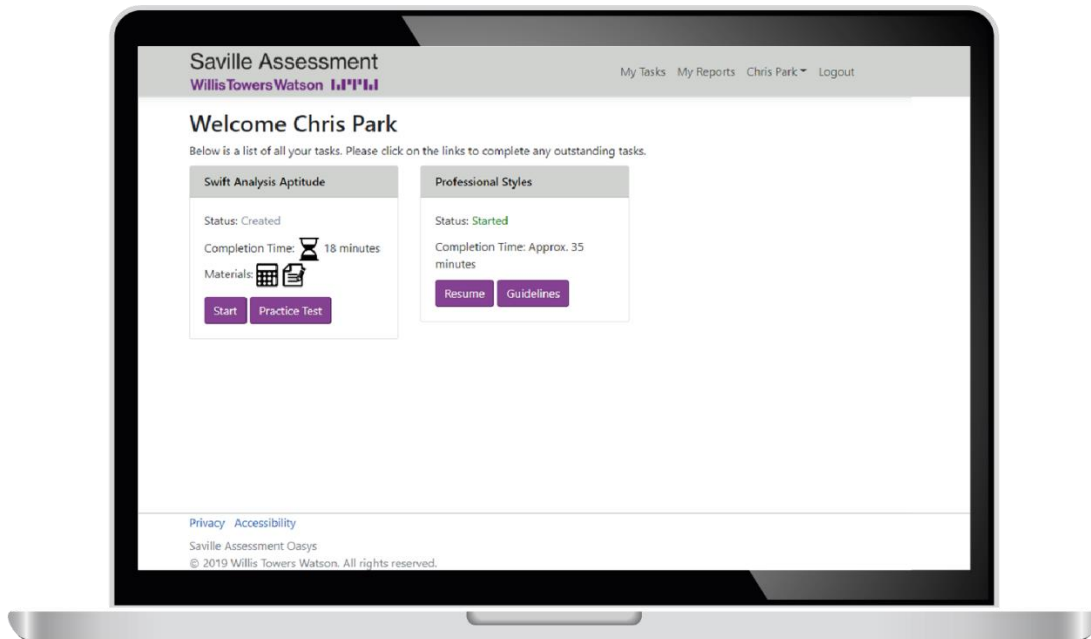

Example of the refreshed Oasys login page and candidate dashboard (mobile).

Example of the refreshed Oasys login page for Candidates and Administrators (desktop).

Example of the refreshed Oasys candidate dashboard page (desktop).

These changes will be able to be viewed from the 18th September.

As a result of these changes we will be **upgrading the minimum technical specification** required to access the **Oasys platform**.

Important Information Regarding Minimum Browser Requirements

If you are using Internet Explorer, the requirements will change **from no minimum browser requirement to Internet Explorer 10 (IE10)**.

The minimum browser requirement required to access the **aptitude player is changing from Internet Explorer 9 to a minimum requirement of Internet Explorer 11 (IE11)**.

If IE users **do not** meet these minimum requirements, an error message will be displayed requesting an update to your browser or to switch to another browser or device.

When will it be released?

This change will happen on the 18th September.

Should you require further information, please contact assessment.updates@savilleassessment.com.
