

## 2021 Comprehension Aptitude Norms

### Superseding Older (pre-2021) Norms on Oasys

Our new and updated 2021 norms for the Comprehension Aptitude range were launched in November 2021.

For an interim period of **3 months** our 2021 Comprehension Aptitude norms have been available alongside the older Comprehension Aptitude norms.

After the 7<sup>th</sup> March 2022, all **new projects** will need to be set up using the new 2021 norms. The older norms will still be available for report generation within any current existing projects if you have auto-reporting configured to the project.

For any integration projects, our Integration Support team will be in contact with you to manage the switch to the 2021 norms.

### Where can I find detailed information about the 2021 norms?

Full norm description documents are available on the Client Resources Area.

Should you have any issues accessing the 2021 norms, please contact [bureau.manager@savilleassessment.com](mailto:bureau.manager@savilleassessment.com).
