Environment Fit Report Chris Park

Predicted Culture/Environment Fit

Based on extensive Saville Assessment research linking the styles of individuals to culture at work, this highlights the aspects of the culture, job and environment that are likely to enhance or inhibit your success:

Performance Enhancers

- ⊕ where the ability to get rapidly to the core of issues and readily identify solutions to problems is highly valued
- ⊕ where heated debate is valued and people are encouraged to challenge ideas, argue and voice disagreements openly
- ⊕ where people are encouraged to assume responsibility for important decisions and decisiveness is a valued characteristic
- ⊕ where there is a strong results focus and determination to succeed, no matter what, and people are rewarded for achieving outstanding results
- ⊕ where creativity and innovation are encouraged and radical ideas and solutions welcomed
- ⊕ where energy levels are high, there is a strong action orientation and people are rewarded for taking the initiative and making things happen
- ⊕ where self confidence is regarded as an asset and people are encouraged to know their own worth and take responsibility for their own workload
- ⊕ where the ability to make a persuasive case is highly valued and influence is by means of persuasion and negotiation rather than the exercise of authority

Performance Inhibitors

- ⊖ where little value is placed on providing new insights and identifying potential improvements
- ⊖ where dissent is frowned upon and people are discouraged from challenging ideas and voicing disagreements
- ⊖ where the responsibility for major decisions rests with other people and there is little opportunity to influence the outcome
- ⊖ where the urge to achieve outstanding results is not great and people seldom persist in the face of difficulties
- ⊖ where conventional attitudes prevail, traditional approaches are preferred and people are discouraged from generating new ideas
- ⊖ where energy levels are low and people show little initiative
- ⊖ where self confidence is equated with arrogance and denigrated, and people are discouraged from taking control of their own workload
- ⊖ where influence is by means of command and control rather than by persuasion and negotiation

About this Report

This report is based upon the Work Strengths assessment, which explores an individual's strengths in critical work areas.

The results are based on a comparison with an international group of over 14,000 professionals and managers.

Since the questionnaire is a self-report measure, the results reflect the individual's self-perception. Our extensive research has shown this to be a good indicator of how people are likely to operate in the workplace. Nevertheless, due consideration must be given to the subjective nature of using an individual's self-perception in the interpretation of these data.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

The information contained within this report is likely to remain a good reflection of the individual's self-perception for 12-24 months, depending upon circumstances.

The report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the respondent, and reflects the responses they made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.
