## **About this Report**

This report is based upon the Wave® Styles assessment, which explores an individual's motives, preferences, needs and talents in critical work areas.

The results are based on a comparison with an international group of over 18,000 senior managers and executives.

Since the questionnaire is a self-report measure, the results reflect the individual's self-perception. Our extensive research has shown this to be a good indicator of how people are likely to operate in the workplace. Nevertheless, due consideration must be given to the subjective nature of using an individual's self-perception in the interpretation of these data.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

The information contained within this report is likely to remain a good reflection of the individual's self-perception for 12-24 months, depending upon circumstances.

The report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the respondent, and reflects the responses they made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorized by Saville Assessment.

## Introduction

#### Leadership Styles Profile

The Leadership Styles Profile provides an overview of the 18 Leadership Styles arranged under the three Ps of leadership.

#### **Leadership Impact Potential Prediction**

The Leadership Impact Potential Prediction gives a unique prediction of Chris Park's likely strengths and limitations in nine key Leadership Impact areas. The prediction should be interpreted against key work requirements as established through job analysis or competency profiling methods. Highly positive profiles may reflect an unrealistically positive self-view whilst low scoring profiles may reflect an overly critical self-view. In such cases it is particularly important to verify the results against other information.

### Situational Leadership Profile

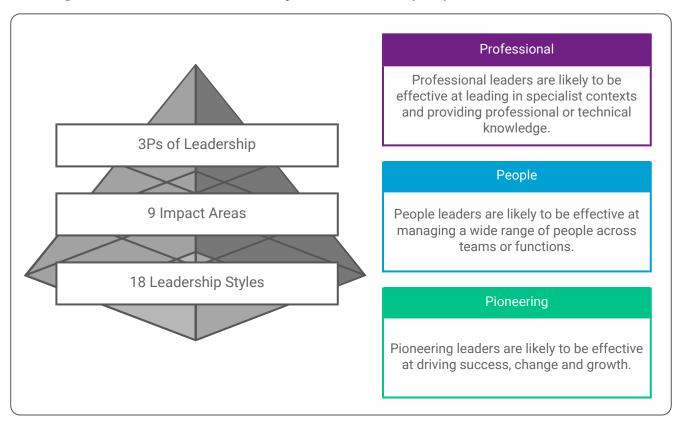

The Situational Leadership Profile gives an indication of the workplace situations in which Chris Park is likely to be more or less effective as a leader. This profile shows the top and bottom ranked situations, based on responses to the Styles questionnaire.

## Introducing the Leadership Impact Model

The Leadership Impact model is a hierarchical model of leadership effectiveness. At the top of the hierarchy, the 3P factors represent three main approaches to effective workplace leadership.

Each of the three Ps can be broken down into three Impact areas. These represent nine areas at work in which leaders can exert a critical impact. The nine Impact areas can be thought of as primary components of effective workplace leadership. In the Leadership Impact model, there are also 18 Leadership Styles which are broadly aligned to the nine Impact areas.

The diagram below shows the hierarchy of the Leadership Impact model.

#### **Leadership Impact Model Summary**
