About this Report

This report is based upon Swift Global Aptitude, an online test of the ability to recall information, solve number series and complete abstract sequences.

The results are based on a comparison with an international group of 410 professionals and managers. The results in this report are presented on a 1 to 10 Sten scale, where 1 indicates low performance and 10 indicates high performance on the test. The margin of error that should be allowed before concluding that there is a difference between scores is indicated by the diamond shape.

When reading this report, please remember that it is based on the information gained from the test completion only. It describes performance on this particular test, rather than performance at work or study. Research suggests that ability tests can be powerful predictors of successful performance in study and work activities.

The information contained in this report is confidential and every effort should be made to ensure that it is stored in a secure place.

The information contained within this report is likely to provide a valid measure of aptitude for 12 to 24 months.

The report is based on the results of the online test that the respondent was invited to complete under unsupervised conditions. The identity of the actual respondent has not been verified by a test administrator. Further testing under supervised conditions is recommended for high-stake decision making.

This report was produced using Saville Assessment software systems and has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report.

The application of this test is limited to Saville Assessment employees, agents of Saville Assessment and clients authorized by Saville Assessment.

Introduction to Assessment Report

This report provides feedback on the responses of Sample Candidate to the Swift Global Aptitude test.

Total Score

This test measures three different areas of aptitude: recall, numbers and abstract, which are important in the world of work for a variety of roles. This section of the report provides a total test score relative to the comparison group: Professionals & Managers (INT, IA, 2022)

The Total Score indicates how well Sample Candidate has performed overall on the test.

Aptitude Area Sub-Scores

The sub-scores provide information on how Sample Candidate performed on each of the aptitude sub-tests. The pattern of results indicates relative strengths and weaknesses across the following areas of aptitude:

Recall - assesses the ability to correctly remember figures and their position in a grid of cards.

Numbers - assesses the ability to identify patterns in a series of numbers.

Abstract - assesses the ability to identify patterns in a series of shapes and symbols.

Aptitude & Pace Comparison

Aptitude and pace scores are shown for each of the areas in the test. These scores are compared in a graph using a 1 to 10 sten scale, with the sten values given in parentheses. The pace score is based on the candidate's response time for the questions they completed compared to the average response time for the same questions. Pace is shown from slow at the bottom of the graph to fast at the top. Aptitude runs from low on the left of the graph to high on the right.

Total Score

This page shows the Total Score relative to the Professionals & Managers (INT, IA, 2022) comparison group on a 1 to 10 sten scale.

Interpretation Guidelines

Comparison Group: Professionals & Managers (INT, IA, 2022)

Sten 1: higher than about 1% of the comparison group

Sten 2: higher than about 5% of the comparison group

Sten 3: higher than about 10% of the comparison group

Sten 4: higher than about 25% of the comparison group

Sten 5: higher than about 40% of the comparison group

Sten 6: higher than about 60% of the comparison group

Sten 7: higher than about 75% of the comparison group

Sten 8: higher than about 90% of the comparison group

Sten 9: higher than about 95% of the comparison group

Sten 10: higher than about 99% of the comparison group

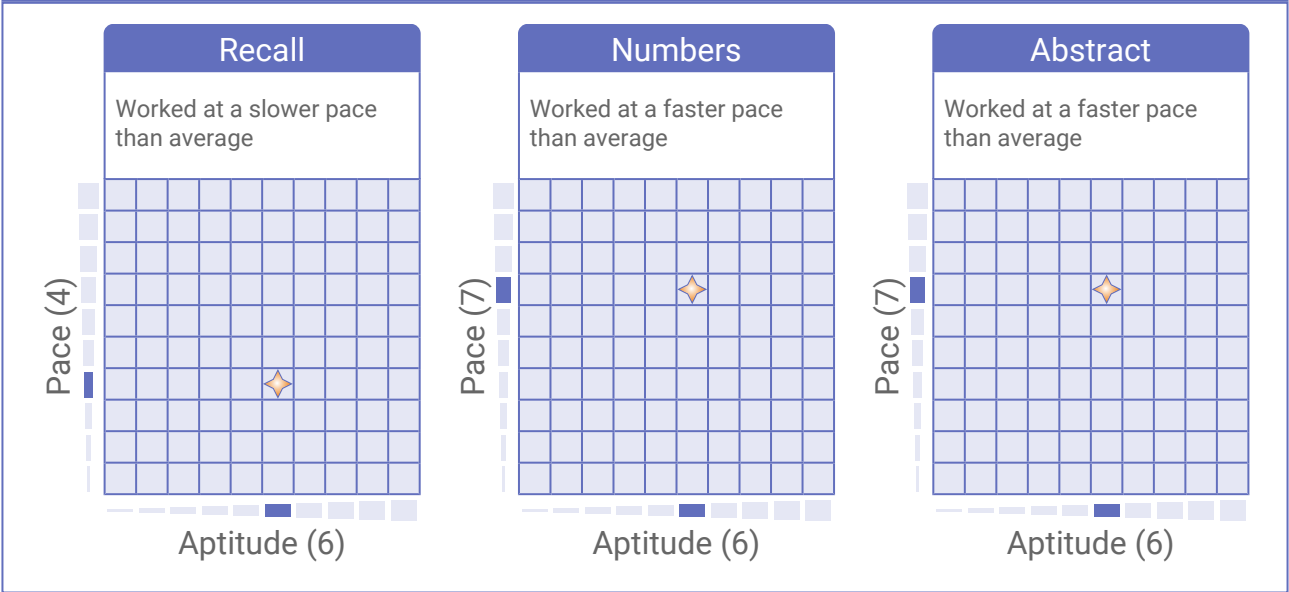

Aptitude & Pace Information

This page displays aptitude and pace information for each of the areas in the test relative to the Professionals & Managers (INT, IA, 2022) comparison group.

Aptitude Area Sub-Scores

		Scores									
		1	2	3	4	5	6	7	8	9	10
Aptitude Areas	Recall (Average - 54%ile) Likely to find recalling information as easy as other people.										
	Numbers (Average - 62%ile) Likely to find working with numerical information as easy as other people.										
	Abstract (Average - 50%ile) Likely to find working with abstract information as easy as other people.										

Aptitude & Pace Comparison

Improving Abilities

Some tips for improving abilities are provided below:

Recall

- Practice memorizing different types of information. For example, objects in a picture, phone numbers, or items on a shopping list.
- Compete with others in memory games such as finding identical pairs of cards in the correct position in a grid.

Numbers

- Complete calculations both with and without a calculator.
- Look for differences in numerical trends.
- Check calculations done by others.
- Take on responsibilities which involve working with numbers.
- Complete number puzzles.

Abstract

- Examine information presented in abstract forms in books and newspapers.
- Complete logic puzzles and games.
- Look for patterns and relationships in information.
- Practice creating diagrams which represent relationships, connections and sequences.
